About REE

REE Automotive (Nasdaq: REE) is an automotive technology company that allows companies to build any size or shape of electric vehicle on their modular platforms. With complete design freedom, vehicles Powered by REE are equipped with the revolutionary REEcorner™ which packs critical vehicle components (steering, braking, suspension, powertrain and control) into a single compact module positioned between the chassis and the wheel, enabling REE to build the industry's flattest EV platforms with more room for passengers, cargo and batteries. REE platforms are future proofed, autonomous capable, offer a low TCO, and drastically reduce the time to market for fleets looking to electrify. To learn more visit www.ree.auto.
